

April 27, 2022

Dear Sir/Madam,

on behalf of the Scientific and Organizing Committee, we are pleased to invite you to the 11th IWA International Symposium on Waste Management Problems in Agro-Industry (AGRO'2022), which will be held on 23-26 October 2022 in Gdańsk, Poland. The AGRO Symposia have provided an excellent platform for exchanging ideas for solving the environmental problems generated by agro-industries. This time the main themes will focus innovative water and waste management systems, nutrient removal and recovery, sustainable bioenergy production, new trends in resource recovery, and circular bioeconomy.

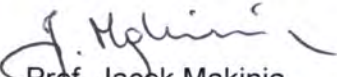

The AGRO 2022 continues the tradition of similar events going back to 1989, when the series was initiated in Istanbul, Turkey. The symposia have been organized on a regular basis (every 3-5 years) and visited three continents. Their success is evident, continuing to attract participants from all over the World. As such, the symposium series has become one of the well-known IWA activities in its field. For the first time, the Symposium will take place in Central and Eastern Europe. The forthcoming event is supported by the IWA Nutrient Removal and Recovery Specialist Group. Our mission is to continue the AGRO Symposium Series with the success that is being expected to be at least equal to that of the previous ones.

The symposium will bring together international experts as well as scientists and practitioners from the fields of water and wastewater treatment to share their experiences and knowledge. We will be inviting internationally distinguished speakers in this field and arranging the technical sessions that will hopefully make the conference a memorable, beneficial and professionally inspiring event.

The Organizing Committee of AGRO'2022 we would like to enable a pleasant conference atmosphere where contacts, cooperation and knowledge transfer will provide a great opportunity for municipalities, governmental officials responsible for treatment plant design, construction, management and control, consulting companies, contractors, manufacturers and suppliers to introduce their ideas, know-how, products, or services to the EU and international markets.

Within this frame, we expect the support of all establishments and companies in the above subjects. Please find attached a list of our sponsorship opportunities. Please note that it is possible to support the conference by one or more of the sponsorship opportunities given.

With our best regards,

Prof. Jacek Mąkinia
Chair of the Scientific Committee

Assoc Prof. Aneta Łuczkiwicz
Chair of the Organizing Committee

“Gold” Sponsor (5.000 €)

- ✓ Three (3) complimentary registrations
- ✓ 20 min. presentation during poster sessions/lunch breaks
- ✓ Company logo on prominent location of conference program and conference proceedings
- ✓ Promotion as conference sponsor
- ✓ Information leaflets in the conference bag
- ✓ One tabletop (2 m2) exhibit (optional)

“Silver” Sponsor (3.500 €)

- ✓ Two (2) complimentary registration
- ✓ 10 min. presentation during poster sessions/lunch breaks
- ✓ Company logo on conference program and conference proceedings
- ✓ Promotion as conference sponsor
- ✓ Information leaflets in the conference bag

“Bronze” Sponsor (2.000 €)

- ✓ One (1) complimentary registration
- ✓ Company logo on conference program and conference proceeding
- ✓ Promotion as conference sponsor
- ✓ Information leaflets in the conference bag
